

*eLearning Exam Information (2016-2017)*

---

The schedule for eLearning course exams for all year or semester courses is posted below. Students will take their exam(s) during their regularly scheduled times in PHS Lab 145. If a student feels that they do not have enough time in the lab to complete their exam they can schedule a time before or after school on the date of their scheduled exam(s). *This schedule only pertains to core (for credit) courses.*

Students are encouraged to complete all assignments up to their exam prior to their subject area(s) exam date. Students who do not complete assignments may risk failing the course.

Students who complete course assignments ahead of schedule may complete the exam at an agreed upon time. Students should contact Kelly Blakeslee if this applies.

Students who have received an extension due to a late course entry date will be contacted directly regarding their exam times.

| <b><i>Date</i></b>             | <b><i>Subject Areas</i></b>                |
|--------------------------------|--|
| <b>Monday, January 9th</b>     | <b>Math &amp; Social Studies</b>           |
| <b>Tuesday, January 10th</b>   | <b>English Language Arts &amp; Science</b> |
| <b>Wednesday, January 11th</b> | <b>Electives &amp; Foreign Languages</b>   |
| <b>Thursday, January 12th</b>  | <b>Exam Makeups</b>                        |

Students taking a prescriptive (credit recovery) course are required to complete the exam in their course(s). The exam is treated as another assignment and must be completed as part of the course assignments. The exam in prescriptive courses can be completed as soon as the student completes all other assignments in the course. The dates listed above do not apply.

Questions regarding exams in core or prescriptive courses can be directed to Jeremy Stangelo or Kelly Blakeslee.
